### Safe at Home, Just as Always

With the TxGo emergency call wristband, your protection doesn't stop at your front door. It stays with you wherever life takes you.

Whether you're shopping, out for a walk, visiting family and friends, or on holiday, TxGo lets you wear your familiar emergency call wristband wherever you go, giving you peace of mind and a reassuring sense of security—even when you're away from home.

### Automatic Protection, Wherever You Go

As soon as you leave your home, TxGo automatically connects to the free TxGo app on your smartphone. There's nothing you need to activate or adjust.

If you trigger an emergency call while you're out, the app automatically transmits your current location and your user ID to the emergency response centre. An operator will then call you on your smartphone to assess your situation and arrange the appropriate assistance.

Thanks to precise location sharing, the emergency response team knows exactly where you are. This enables help to be dispatched quickly, accurately, and reliably, wherever you need it.

### About TeleAlarm

TeleAlarm is a leading European provider of personal emergency response and nurse call systems. The company develops and manufactures reliable solutions that support independent living for older adults and other vulnerable individuals, both at home and in professional care environments.

**If you have any questions about TeleAlarm or our products, our team will be happy to help you.**

### The Perfect Team

The TxGo and the TA74 Assistive Technology Carephone work seamlessly together.

Operating in tandem, an installed TA74 Assistive Technology Carephone and the TxGo app deliver a system with a comprehensive range of features—providing reliable protection both at home and on the go.

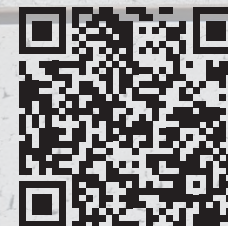

TA74 series Carephone

**Please note:** Using TxGo and its application requires the user to already have a TA74 device.

### How Does the TA74 Carephone Work?

The TeleAlarm TA74 Carephone is one of the most reliable, and user-friendly home emergency call systems available. At the press of a button, it quickly and reliably connects you to the emergency response centre whenever help is needed.

Simply scan the QR code to watch our short introductory video and see just how easy and intuitive the TeleAlarm TA74 Carephone is to use.
